1.0 INTRODUCTION

The African Women's Development Fund (AWDF) conducted a Grantee Recognition Survey in February, 2015 to collect information on the recognition and influence attained by grantee partners and stakeholders in Africa as a result of the remarkable work that they are doing. To do this, a questionnaire was sent to 102 grantee organizations in Anglophone Africa and 24 organizations in Francophone Africa that were provided with grant in 2013. Responses were received from 54 organizations in English-speaking Africa and 8 organizations in French-speaking Africa representing a response rate of about 49%.

The report below is a summary of the findings collated from the responses of the organizations in Africa (both Anglophone and Francophone) who completed the questionnaire.

5.0 WHETHER ORGANISATION OR MEMBERS HAVE RECEIVED RECOGNITION

The main objective of the survey was to find out from grantees whether they had received any form of recognition for their work and to obtain specific information about the form of the recognition received.

From the table and graph below, it can be observed that some organizations said that they had received some recognition while others said they had not. Out of the 62 respondents, 18(representing 29.0 percent) said they had not yet received any recognition for work done while 44(representing 71 percent) had received various awards.

5.1 Whether organization has received any recognition or reward for work done or being done

	Frequency	Percent
Not Yet	18	29.0
Yes	44	71.0
Total	62	100.0

The various forms of recognition received by grantees have been depicted in the table below together with their respective frequencies and percentages.

5.2 Type of recognition/award received

What recognition/award was received	Frequency	Percent
Certificate of recognition	16	13

6.0 FORM OF RECOGNITION RECEIVED

Thesurvey further sought to know the form which the recognition took, that is, whether the recognition received by grantees was on an individual or organizational basis, or both.

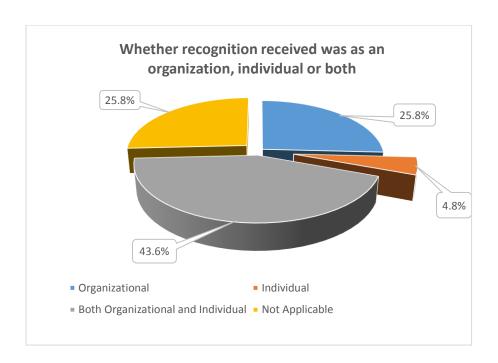

The table and pie chart below provides details on the number and percentages out of the total which received recognition as an organization or whose member(s) had received recognition, or who had received recognition in both forms.

Out of the 62 organizations which responded to the entire questionnaire, 24 organizations representing 44.4% received recognition at both individual and organizational levels. 15(also representing 27.8 percent) received awards and recognition at organizational levels while 3(representing 5.6 percent) received individual awards. Some of the organizations did not respond to this part of the questionnaire because they had not received any recognition at the time of the survey hence labeled as 'Not Applicable'. 12 organizations (representing 22.2 percent) fell into this category.

Whether recognition received was as an organization, individual or both

	Frequency	Percent
Organizational	16	25.8

Individual	3	4.8
Both Organizational and Individual	27	43.6
Not Applicable	16	25.8
Total	62	100.0

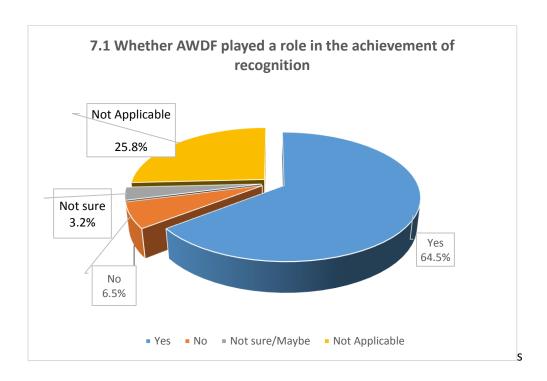

7.0 THE ROLE OF AWDF

Another objective of the survey was to find out from grantees whether AWDF played a role in the recognition and/or awards they received as individuals or as an organization or at both levels. From the table and pie chart below, out of the 62 responses recorded, 40(representing 64.5%) said AWDF played a role in the recognition they received while 4(representing 6.5 percent) said their partnership with AWDF did not play any role with the recognition they received. 2(3.2 percent) organizations were not sure whether or not AWDF's support had contributed to their gaining recognition for their work done. 16 (25.8%) failed to respond because they had not received any recognition at the time, and fell in the category labeled "Not Applicable".

7.1 Whether AWDF played a role in the achievement of recognition

	Frequency	Percent
Yes	40	64.5
No	4	6.5
Not sure/Maybe	2	3.2
Not Applicable	16	25.8

SWAAN	In 2002 AWDF supported SWAAN to conduct a strategic planning workshop that assisted SWAAN to develop a five-year strategic plan that helped the organization to strategically position itself in the country for National response towards the HIV/AIDS Epidemic. Subsequently AWDF has supported SWAAN to implement women focus programs most especially on economic empowerment for women living with HIV and widows. AWDF-SWAAN relationship remain strong till date and it has put smile on the faces of many vulnerable women
ANGIE BROOKS INTERNATIONAL CENTRE	AWDF partnership played a very important role for this recognition. It was the funds received from AWDF that allowed ABIC as an institution to do those works which led to ABIC being seen as peace ambassador. ABIC could not have received the award if she has not received finding from AWDF.

8.0 CONCLUSION

The Grantee Recognition Survey conducted was not a great success because of the challenge we encountered in getting grantees to respond to the questionnaire. This is reflected in the relatively low response of 49% recorded. However, the results of the survey (based on the information provided by organizations that responded) indicate that 44 (representing 71.0%) have received awards and or some form of recognition while 40(representing 64.5%) acknowledged AWDF for its contribution in their attainment of the awards and recognition.
